TAIMEN LODGE

NORTHERN MONGOLIA

Headwater rafting

Follow the river. Find your adventure.

11 DAYS / A JOURNEY FROM THE HEADWATERS

01 / THE ROUTE

Let the river lead.

Start in the remote headwaters and follow the river downstream to the confluence. Each day brings another stretch of water, a changing landscape, and a new place to pause.

MOUNTAIN WATER. OPEN HORIZONS.

Cliffs rise beside the raft. Forests line the banks. Between casts and bends, there is time to look up and take it all in.

02 / BETWEEN THE BENDS

A river full of possibility.

There is anticipation in every cast, and a story in every fish. Bring your attention to the water and enjoy the moments that make a river journey your own.

03 / THE EXPEDITION

A different view each day.

Travel downstream and camp beside the river each evening. The rhythm is simple: a new stretch of water, a pause on the bank, and another day lived outdoors.
